5: Vehicle Service Management - Zoho Creator Reports Suite

Aim:

To design and build a complete suite of Reports in Zoho Creator for the "Vehicle Service Management" application, demonstrating the correct usage of all nine Report Types available in Zoho Creator.

Reports Used Overview

Report Type	Report Name
List View	Service Request Report
Spreadsheet View	Service_Requests_Spreadsheet
Kanban View	Service_Status_Kanban
Calendar View	Service_Appointment_Calendar
Map View	Service_Center_Map
Timeline View	Service_Activity_Timeline
Pivot Table	ServiceType_By_VehicleType_Pivot
Chart View	ServiceType_Distribution_Chart
Summary View	Service_Cost_Summary

Detailed Report Descriptions

1. Service Request Report (List View)

- **Purpose:** Default landing report for the Service Operations Team, displaying all service requests in a clean, searchable tabular format.
- **Features: Supports global search, sorting, and filters for customer, vehicle, contact, registration, and service-type fields.**

2. Service_Requests_Spreadsheet (Spreadsheet View)

- **Purpose: Utilized daily by service advisors to review and update service parameters quickly in a grid layout.**
- **Features:** Allows inline editing for specific vehicle and service-status fields while keeping baseline customer and vehicle details read-only for data integrity.

3. Service_Status_Kanban (Kanban View)

- **Purpose:** Provides a visual pipeline for tracking how service requests progress through various review stages (e.g., Requested, Inspection, In Progress, and Completed).
- **Features:** Cards can be dragged across columns to automatically update the underlying status field.

4. Service_Appointment_Calendar (Calendar View)

- **Purpose:** Used by service advisors and customer support to monitor and manage scheduled service appointments, follow-ups, and service dates.
- **Features:** Monthly, weekly, and daily grid views allowing quick identification of scheduled appointments.

5. Service_Center_Map (Map View)

- **Purpose: Maps service requests across Chennai and nearby areas for the regional service team.**
- **Features: Pins highlight high-demand zones for capacity planning.**

6. Service_Activity_Timeline (Timeline View)

- **Purpose: Enables management to track service request inflow velocity and user activities across specific hours and days of the week.**
- **Features: Chronological breakdown highlighting peak periods of service request submissions.**

7. ServiceType_By_VehicleType_Pivot (Pivot Table)

- **Purpose: Summarizes relationships between vehicle types, service categories, and aggregate metrics to analyze service demand.**
- **Features:** Provides matrix totals and grand counts for comparative internal review.

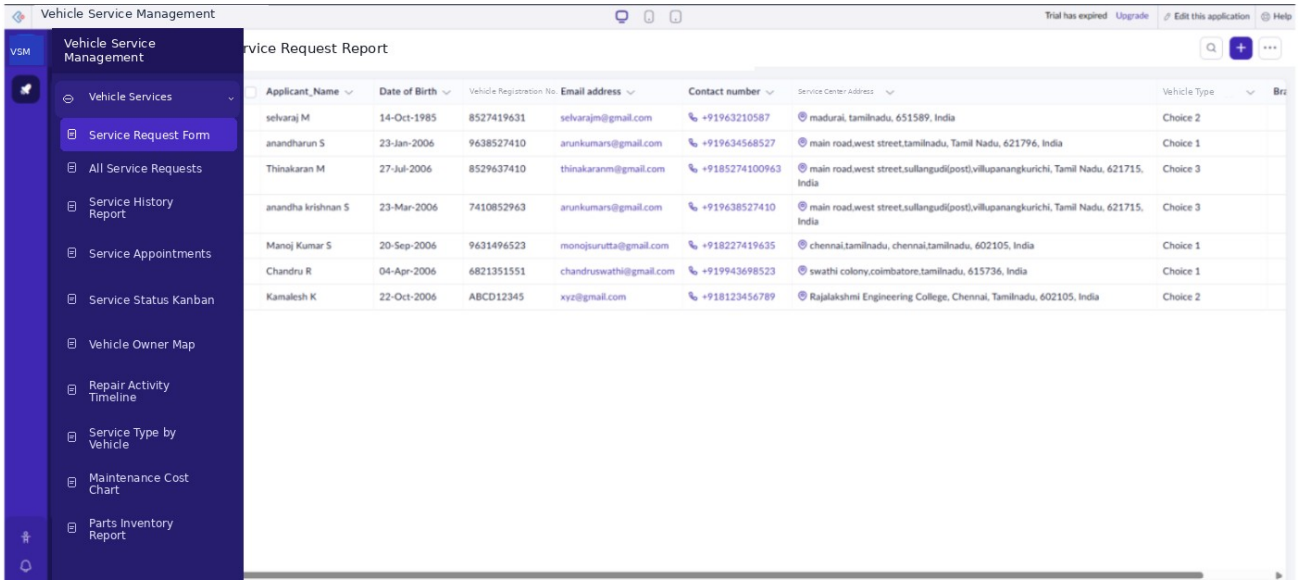

8. ServiceType_Distribution_Chart (Chart View)

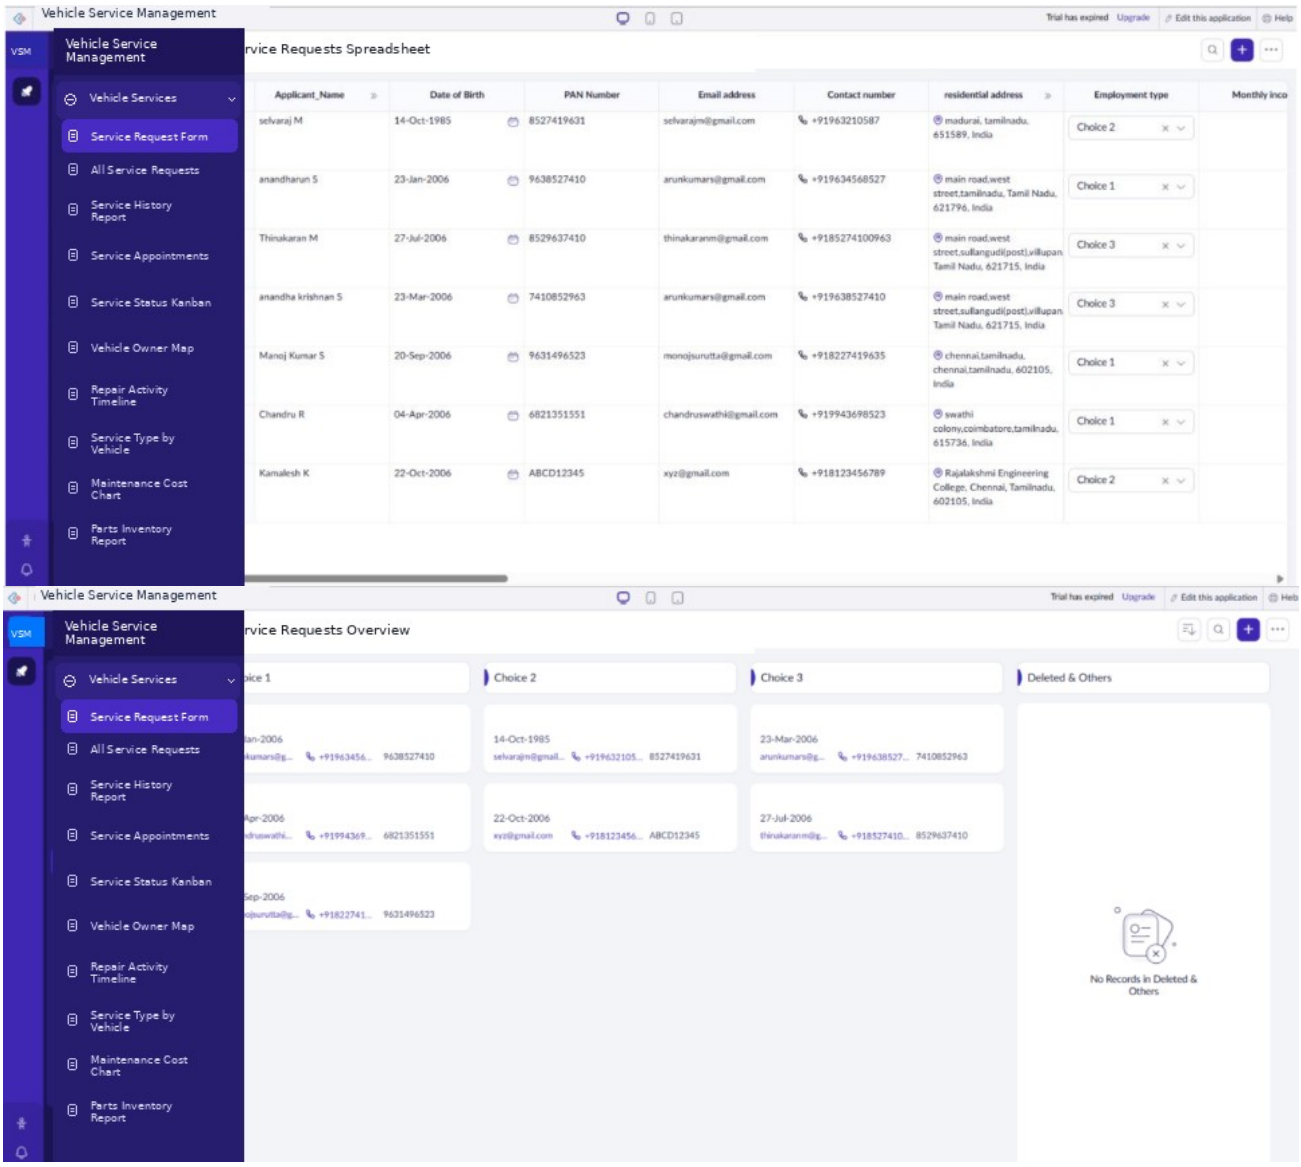

- **Purpose:** Visually compares service volumes and cost categories across vehicles using interactive graphical nodes and filters.
- **Features:** Dynamic sorting and multi-legend filters for vehicle registration numbers and customer attributes.

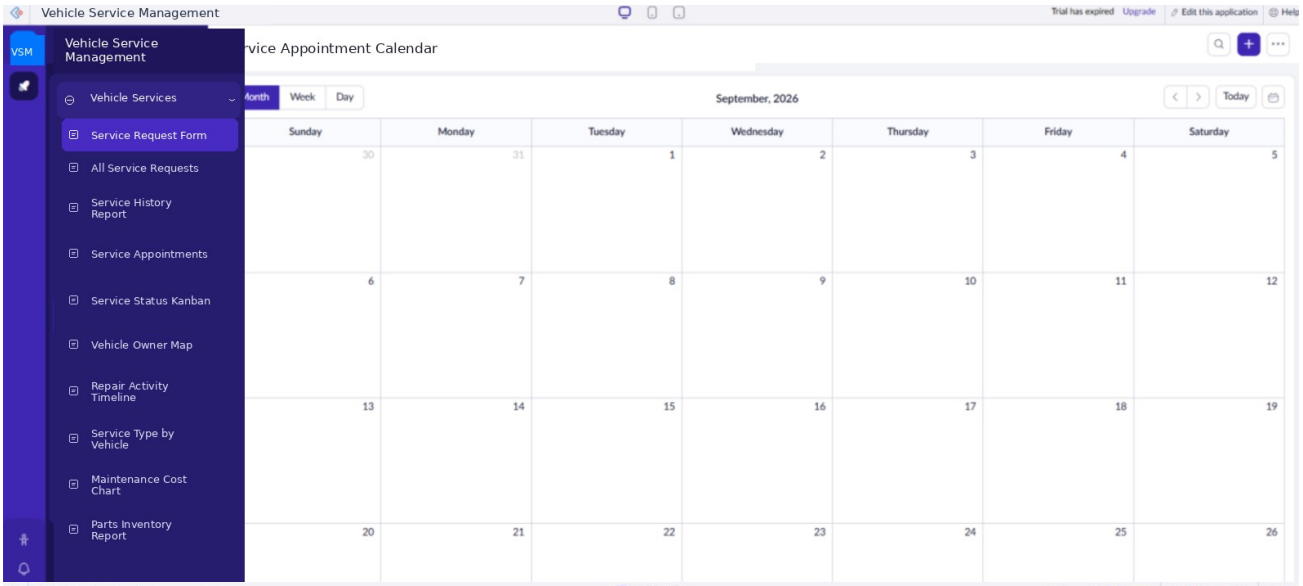

9. Service_Cost_Summary (Summary View)

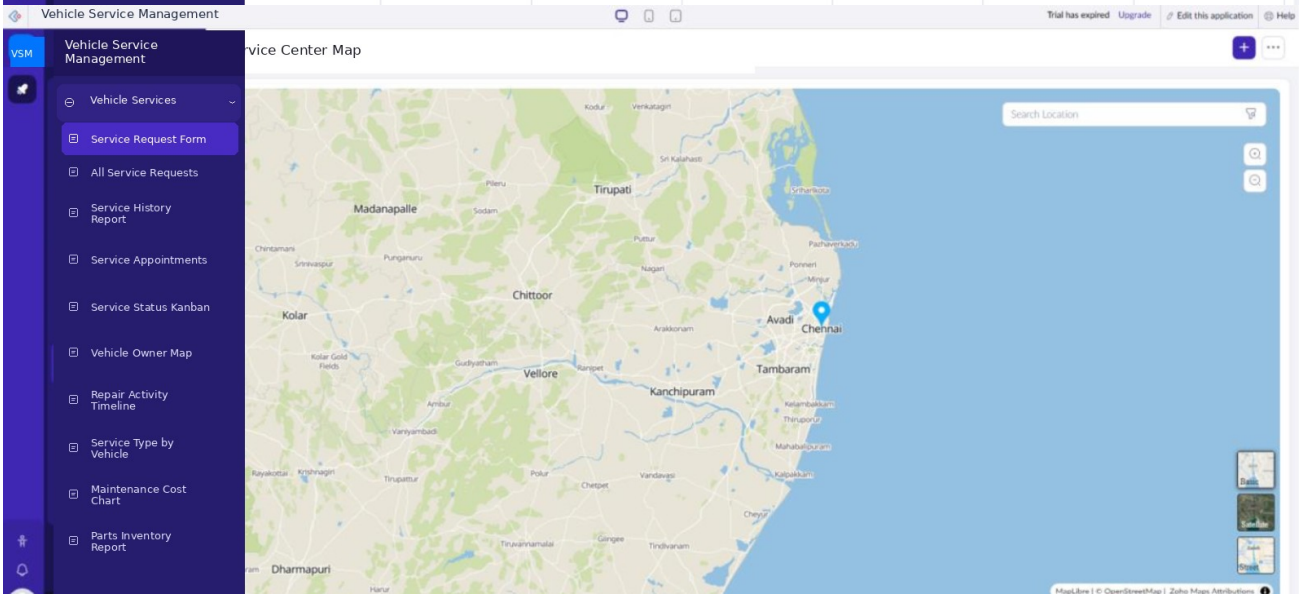

- **Purpose: Aggregates core service revenue and work-order metrics to support service manager reviews and workload planning.**
- **Features:** Displays calculated totals and category groupings for quick executive summaries.
